#### SWEDEN.

#### LIST OF ARTICLES THE EXPORT OF WHICH IS PROHIBITED.

May 13, 1915.

##### NOTES.

1. As a general rule, goods in transit through Sweden will not be detained or interfered with (even if their exportation from Sweden is prohibited) provided that they are accompanied by a bill of lading clearly indicating the ultimate (non-Swedish) destination. (17641)

As an exception to this rule, however, the transit through Sweden of arms, ammunition, and other war material is prohibited. The articles to which this prohibition of transit applies are indicated by a cross (x) in the list printed below.

2. The numbers and letters quoted below relate to the headings of the "Statistical Index of Goods" under which the prohibited articles fall.

The numbers are the same as those of the Swedish Customs Tariff; the letters indicate the sub-divisions of the numbers, and are found only in the

\* The numbering of the headings in the Tariff has been altered since 1910 when the Board of Trade translation of the General Customs Tariff was published. The most convenient form in which the Tariff in its present form can be consulted is the translation published by the International Customs Tariff Bureau at Brussels (No. 93, Second Edition, March 1912).
